

Mini magnetic contact

- Mini magnetic contact via radio
- Supervises the opening/closing of doors and windows
- Suitable for residential and commercial security
- Tamper protection
- LED status indicator
- Supervisory signals for optimal operation
- Minimal power consumption Low battery detection
Powered by 1 lithium battery with a life of up to 7 years.

Reference / Model	MDC-3-AMX
Mini magnetic contact via radio	
Monitors the opening/closing of doors and windows	
Innovative new design: allows highly flexible installation	
Virtually invisible: easily integrates into doors or windows and provides seamless security protection	
Technologically advanced: ensures accurate detection of irregular activity, guaranteeing increased security	
Tamper protection to prevent unauthorized removal	
LED status indicator	
RF frequency: 868MHz	
Supervisory signals to ensure optimal operation	
Power supply: 1 x CR2032 3V lithium battery	
Battery life up to 7 years	
Low battery detection	
Operating temperature -10°C ~ +45°C (-10°C ~ +45°C)	
Relative humidity up to 85% (non-condensing)	
Dimensions (body): 29,2 (W) x 61,5 (H) x 10,5 mm	
Dimensions (magnetic): 7,8 (W) x 60,1 (H) x 10,2 mm	

Mini magnetic contact
